

Maintenance is Key

Now is the best time to get your home ready for the cold winter months. Be sure to have your furnace and fireplace inspected by a professional, and check your gutters and downspouts for potential hazards.

Fall is here and the cooler temperatures are sure to follow. Take this time to get your home prepared for winter. Check the exterior of your home; making sure your gutters and downspouts are clear of debris. Clear leaves from the yard and consider covering your air conditioning unit. It is also a good idea to have a professional inspect your furnace and fireplace each year before you begin using them.

We're here to help you with tips to keep your home safe & warm this winter. Click below to read about furnace maintenance, space heater safety and fireplace care. Call your [Mitchell Insurance](#) agent today to review your policy coverages.
